## 5mL & 10mL Filter Pipette Tips

### Features

With wide compatibility, these tips are crafted to fit popular single-channel pipettors like Dalong, Brand, Eppendorf, and others.

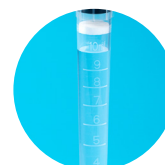

The tip provides outstanding clarity and includes well-defined graduations, simplifying the process of observing during pipetting.

These tips are manufactured using high-quality polypropylene, guaranteeing outstanding resistance to chemicals.

The integrated filter isolates aerosols, effectively preventing cross-contamination.

Sterilized, free from DNase, RNase, DNA, heavy metals, and pyrogens.

### Raw Material

The tips and racks are crafted from polypropylene, and the filter within them is constructed using polyethylene.

### Application

5mL and 10mL filter pipette tips are frequently employed across diverse laboratory tasks that demand meticulous and controlled manipulation of substantial liquid volumes. These tips find widespread applications in various fields, including cell culture, sample preparation, protein purification, serological testing, and more.

## 5mL & 10mL Filter Pipette Tips

### Product Range

Type	Description	Packaging
5mL-L	5mL pipette tips, 175mm length, Large entrance, Nature, sterile, RNase and DNase free	Racked & Bagged
5mL-T	5mL pipette tips, 150mm length, Small entrance, Nature, sterile, RNase and DNase free	Racked & Bagged
5mL-E	5mL pipette tips, 130mm length, Large entrance, Nature, sterile, RNase and DNase free	Racked & Bagged
5mL-G	5mL pipette tips, 130mm length, Large entrance, Nature, sterile, RNase and DNase free	Racked & Bagged
5mL-F	5mL pipette tips, 150mm length, Large entrance, Nature, sterile, RNase and DNase free	Racked & Bagged
10mL-T	10mL pipette tips, 161mm length, Large entrance, Nature, sterile, RNase and DNase free	Racked & Bagged
10mL-D	10mL pipette tips, 165mm length, Small entrance, Nature, sterile, RNase and DNase free	Racked & Bagged
10mL-E	10mL pipette tips, 165mm length, Small entrance, Nature, sterile, RNase and DNase free	Racked & Bagged
